Now Stocking!

Arcadian Harvest Emerald

3/2 LBS

35066

FEATURES & BENEFITS

- Plate ready! Washed & ready to eat
- Minimal preparation time
- Unique European Lettuce species bred from Green Leaf, Batavia and Oak Leaf lettuces
- Fully mature (grown 60+ days), petite whole leaves that are more robust than baby lettuces
- Single cut, once at the heart, eliminating the pinking often seen in chopped lettuces
- All-green color allows easy transition from current Romaine or Iceberg usages
- Modified atmosphere packaging (MAP) helps shelf life performance while limiting pink coloring on leaf lettuce cut ends

*Mother's Day is around the corner! Be sure to place your order for **long stem strawberries** today! **Domestic stone fruit and specialty melons** are still a few weeks out. The transition to the Salinas Valley from the winter harvesting areas completed, but we continue to see significant shipping delays with several of our shippers. These delays have contributed to some recent outs especially with **salad blends**. Lime pricing continues to be elevated from the Easter holiday week, but the markets should soften over the weeks to come. **Broccoli and cauliflower** markets are quickly tightening up due to gaps in planting from excessive winter precipitation, and cooler than normal temps in Mexico. **Brussels Sprouts** are also affected by these weather patterns, so elevated prices and low supplies are expected into June. We are at the end of storage crop for **onions**, and will see fresh-run onions by early May. **Celery** supplies will continue to be very tight through May, with no break on pricing until early June.*
